

C&D Product Quick Reference

C&D invests resourcers to environmental protection, starting from the initial plant design through to daily operation. - C&D's factory has World Class Air & Water Treatment, which realizes zero waste discharge, and be friendly to

- Suppliers' environmental and safety performance are always taken into consideration during all purchasing activities, and contractors operating on sites are required to adopt sound environmental policies.
- C&D continues to direct sound product life-cycle management by providing information and collection systems to its customers and sales representatives, in order to promote the environmentally beneficial recycling and re-use of its spent products.
- Domestic and international developments in environmental technology are continuously monitored, and new standards and technologies are incorporated as appropriate.
